Under the tree he found a walnut which he brought home and planted—hence a fine tree growing.

—It is not in a spirit of criticism that we offer the suggestion; but the thought occurs to us that if the grand juryman who disgraced himself and disgusted his fellows by appearing in the jury room yesterday in a state of intoxication, had been committed for contempt of court instead of being discharged, it would not have been an undeserved punishment and might have had a salutary influence instead of suggesting to others a way to escape service on the grand jury in case they wished so to do.

—The luck that some people have is simply marvelous. Now there is Wm. Rink, senior. He has just been presented with a rabbit's foot, mounted in gold, with a full certificate of its pedigree printed and illustrated. A regular Trilby mascot, left hind foot of a rabbit, killed in a country grave-yard at midnight, during the dark of the moon, on Friday, the thirteenth day of the month, by a cross-eyed, left-handed red-headed, bow-legged nigger riding a white horse. Rink is in luck. Last evening in a rubber of seven up he wore this charm on his watch fob and could claim low in every hand and in securing game he says it is better than a shot-gun.

—Daniel Leiby, a farmer of Waddam's Grove, Stephenson county, 73 years old, but in robust health, met his death Monday afternoon in a shocking manner by the premature discharge of an old army musket. He had taken his gun and a brace of hunting dogs and started across the fields in search for prairie chickens. Stopping to converse with a neighbor, who was also accompanied by a dog, the got dogs into a fight and the old gentlemen rested the stock of his gun on the ground to witness the dog-fight. In some manner the gun, over the muzzle of which he was leaning, was discharged, the full load of shot striking him squarely in the mouth and coming out at the ear, shredding one side of his face to fragments and instantly killing him. He was a man of considerably property and one of the best known citizens of the county.

—From now on, until the December meeting of the Board of Supervisors, it is very evident that our Amboy friends will talk of nothing, think of nothing, dream of nothing but the removal of the county seat. Already in imagination they see the walls of a new court house reaching skyward—a veritable castle in the air. W. E. Ives was interviewed yesterday and remarked that the park, out in the country, on the road to Binghamton, was already cleared and it was expected would be devoted to county uses. Very quiet place; no whiskey sold to grand jurors within a mile or two of the court house. Lovely rural surroundings and the disputes of the lawyers would not disturb the peacefulness of the citizens of the town. But Amboy must not be too confident; for we understand there are counter claims for the county seat. A delegation was in from Prairieville the other day prepared to press its claims; and a resident of Lee Center is prepared to prove that that town is the only proper location for the new court house. He says it is the geographical center of the county, and is even a more quiet place than Amboy. It is true that there is the slight draw-back that they have no railroad; but if they had the court house, he had no doubt they would soon get a railroad; troubles never come singly and blessings fly in flocks. Then there is Eldena. She has the Poorhouse and thinks it the best plan to mass the county buildings in one locality; and after the lawyers have got through with their clients it would not be far for them to go, you know. All these things must have a bearing on the question, and mitigate to some extent unfavorably to the fulfillment of Amboy's golden dreams.

MY CALLERS.

As I swung in my hammock one midsummer day,
Carelessly dreaming the long hour away,
First came a big bumblebee, noisy and bold,
Richly dressed in a suit of black velvet and gold.

And next a gay butterfly came sailing by,
With wings edged with polka dots, blue as the sky.
He tarried a moment to bid me "Good day,"
Then lightly and gracefully fluttered away.

The last of my callers, an impudent chap,
Persisted in spoiling my afternoon nap.
In vain all my efforts to drive him away,
The ill mannered fellow determined to stay.

He lit on my cheek and he mummed in my ear,
"You don't like the song of mosquitoes, that's clear,
But invite me to dine and then you'll perceive
How quickly your troublesome caller will leave."

This seemed a strange way to get rid of a guest!
Do you think it would prove the wisest and best?
What effect would it have on some callers you know?
If you asked them to dine, do you think they would go?

This Goat Could Count.

In the days past before the beginning of the land speculation in the building of this city Charles B. Sovier was the fortunate possessor of as fine a specimen of the Angora goat as could be asked. In fact, its pedigree was longer than that of a blue grass racer. When Mr. Sovier was a younger man, he obtained this valuable goat, which he trained in many ways. Then each year the fine wool the goat produced yielded a revenue that was the foundation of his fortune. Mr. Sovier made the goat a regular mathematical table, and so trained was the goat that he would send him into the orchard to procure a dozen sweet limber twigs, and the goat would butt the tree until just 12 nice ripe apples would fall. Then the goat would pick up the apples and put them into a basket and bring them to the house. He could send the goat for one or a hundred apples.

So it was in everything. The goat would be sent to feed the horses and told to let them eat just ten stalks of green corn in the field. The goat would perform the service and butt the horse away from the eleventh hill. If the goat was in a muddy field and started to go to another, he would climb to the top of the fence and wipe the mud off his feet. In this way he did not abstract the soil from either Ben Margrave's or from Parker's farm on to Charles Sovier's farm.

In time the goat became so valuable that Mr. Sovier used to sit on his porch and direct the goat to keep the wheels turning. At last the goat could not digest an empty whisky bottle, and it died. So after this sad occurrence Mr. Sovier sold his farm to the East Tennessee Land company and moved to Harriman, where he now resides. He still insists that goats are intelligent.—Harriman Press.

THE OLD MINER'S STORY.

Arizona Crickets Seem to Travel Eight Miles an Hour.

The truth of the following tale cannot be vouched for. It ought to be true—probably is, as it was told the other day to a small party in an up town club by an old mining engineer from Arizona who has heretofore always borne a reputation for veracity.

"You know," he said, "that one of the most troublesome qualities about giant powder which we use in our work is the fact that the concussion caused by one explosion explodes any other powder which happens to be near at hand. Fatal accidents are often the result. And yet this same quality allowed me to ascertain what I often desired to know—just how fast crickets migrated. They travel eight miles an hour, gentlemen. I found it this way. Last summer an old miner and myself were making our way across one of the plains near Prescott to a claim some miles distant. Night came on before we reached our destination, and we were compelled to build a fire on the trail and fix ourselves until daylight came. We had with us three sticks of giant powder, which, for safety's sake, we carefully laid on the trail about 100 yards from our fire.

"Toward 10 o'clock we began to be disturbed by a great number of those big Arizona crickets, which were following the trail across the plains. They came by thousands, solemnly walking in single file. We knew that it was no use to disturb them, and so let them go by undisturbed. An hour passed and still they came.

"At length I reached out to throw a stick of wood into the fire, and as I did so I brushed a cricket into the flames. Instantly there was a loud explosion that scattered the ashes all over me. Then came another and another—bang! bang! bang! My companion and I jumped to our feet and gazed down the trail. It was simply a line of fire as explosion followed explosion. It kept up until we could no longer hear the reports, but we could trace the devastation by the flashes of light. The last died away in about 20 minutes. We hurried back to where we had left our powder and found but a small stick, all gnawed, left. Then we knew the crickets had dined on it as they passed. The fire and concussion had done the rest.

"On the next day we kept along the trail and found it strewn with the legs and heads of dead crickets. The last corpse was found just eight miles from where we had camped. An hour had intervened between the arrival of the head of the line and the disaster. Hence my conclusion that crickets travel eight miles an hour."—New York Evening Sun.

AN AUTUMN COURSE IN GARMENT CUTTING.

Will open this week at the rooms of the Diamond Garment Cutter Co., over Countryman's store and with the coming of more favorable weather the prospects for a largely increased attendance are very flattering.

The Co. will make a re canvass of the city in the interest of their cutter and will also make a general canvass of the country, which has not as yet been canvassed. The result of the summer's work has been satisfactory as the number enrolled has reached close to 100 and this has been done at a time when vacations and outings were the order of the day. The intense heat of the summer will be succeeded by atmospheric conditions more favorable for practical application to home duties and the prospect for a large fall class is very flattering.

The graduates of the summer class are well satisfied with the instruction received and the Company has on file some fine testimonials from those who have given it a thorough test and all who have applied themselves as they should are delighted with the results abtained. The Company find that they are short of help to cover the immense territory into which they want their work introduced and for this purpose they will gladly train new men and teach them how to do the business successfully.

For this work they will need a large number of canvassers, managers and teachers and with the coming fall and winter they intend to enlarge their force very much.

The fact that they have in the past year in a limited area disposed of 11,000 cutters is pretty good evidence that there is a need of the work. With the return of prosperity in all other lines the prospect of success in garment cutter work is enhanced and its future looks very bright.

Local Manager Gregg will be pleased to see anyone who is desirous of getting employment at his office, Room 16 Countryman Block.

FOR A DRY SUNDAY

New York Republicans Take an Explicit Position.

SLATE GOES THROUGH OTHERWISE.

Excise Plank Added to the Platform by the Convention—Points of the Declaration Adopted—Governor Morton Named for President of the United States—Senator Peffer Tells a Memphis Reporter His Views on the Political Situation.

SARATOGA, N. Y., Sept. 18.—The state Republican convention closed its session last night after following very closely the work mapped out by its leaders. It named this ticket for presentation to the people of the state in November next: For secretary of state, John Palmer, of Albany; comptroller, James E. Roberts, of Erie; state treasurer, A. B. Colvin, of Warren; state engineer, C. W. Adams, of Oneida; attorney general, F. E. Hancock, of Onondaga; judge of the court of appeals, Celora E. Martin, of Broome. The platform demands enforcement of the Sunday liquor law and preservation of the Sabbath. It denounces the Democratic administration for "failing to defend the rights of American citizens resident or traveling in foreign countries" and "for permitting foreign countries to encroach on the western hemisphere."

Morton Named for President.

The handling of the tariff question by the Democratic congress receives condemnation. A "sound and stable currency, giving the people a dollar's worth for a dollar" is indorsed. The return of prosperity is hailed as resulting from the election of a Republican congress, giving confidence to the people in the assurance that no further tariff tinkering will be possible. "The ignorance and unwise policy of the Democrats in passing an unconstitutional income tax" is referred to, as is the record of the Republicans in congress in their opposition to that law. Governor Morton's "wise and patriotic administration" is indorsed and his candidacy for president is formally launched.

References to State Politics.

"The dangers to the people of a return of the Democratic party to power in this state" are portrayed, asserting that the same men who have been repudiated by the voters are still in charge of the affairs of the Democratic party in this state, and that their return to power will mean but "a repetition of the old outrages." The Raines ballot reform law is pointed to as the best enactment for ballot reform yet passed in this state. The platform further sets forth that the demands of the people in the city of New York have been granted in reform legislation.

A Cloud of Discontent Appears.

That it was a close following of the work mapped out is evident from the fact that the security of the state ticket was made possible by the vote of one man. When the morning sun broke over Saratoga it saw such ironbound plans for the convention that it was conceded that there would be no friction and that the plans of the state committee would be carried out. After the opening session there appeared on the horizon a cloud of discontent that grew so rapidly that at 3 o'clock the fate of the state officers seemed to be sealed against renomination. The trouble arose over the contest for seats in the first district and hinged on the seating of the contesting delegation headed by Congressman Mahany.

One Vote Averted the Trouble.

With everything apparently running smoothly the leaders were suddenly confronted with the statement made by State Committeeman George Urban, jr., and Senator Persons that if the Mahany delegation was seated the Erie county delegation would leave the convention and Roberts' name would be withdrawn from the convention, thus breaking the slate. When the convention met the committee reported against Mahany. It was learned that the vote was 16 against and 15 for, the deciding vote having been cast by Wheeler, of Utica. Thus was the catastrophe averted.

Means a "Dry" Sunday at Gotham.

The nearest approach to a break in the plans came when Warner Miller introduced his resolution for the protection of the American "Sabbath," and the carrying out of the excise laws. The leaders who had proclaimed against any excise action accepted the situation and the result was that all friction ceased. Action on the enlargement of the state committee was tabled, and local Sunday option for counties was also killed.

THAT DRY SUNDAY AMENDMENT.

Passes Unanimously After Warner Miller Had Made a Speech.

The Sunday amendment, which may have such an effect on the New York city result, was offered by Warner Miller and is as follows: "Resolved, That we favor the maintenance of the Sunday laws in the interest of labor and morality." Miller said: "I need not tell this convention that the eyes of the people and the nation are on this convention to see what it will do with the vital question of the hour. It must meet this question. It must decide upon it as it has done in the years gone by—in the interest of morality and virtue; for the enforcement of law; in the interests of labor and the working classes. The leader of the Democratic party has sent out a message to the people, advising that the laws be not obeyed.

"That party is trying to make political capital out of this question by telling a certain class of voters in New York that if they support the Democracic party they shall be given a more liberal Sunday." He opposed the local option idea, and when he closed Lauterbach asked to have the resolution read. It was read and Lauterback, waving his hands in a deprecation of calls for him to go to the platform, said: "No good Republican can object to that." [Applause.] The amendment was adopted unanimously, and then the selection of nominees was taken up. After one place on the ticket had been voted for it was seen that there would be no fight against the slate and the ticket was made up by acclamation.

"There is a general rejoicing here on the results of the convention. The opinion of the majority of the delegates is that the adoption of the Sunday enforcement plank is a clever movement that will aid the party. It is generally conceded that the Democrats next week will pass a resolution favoring local option and this will make clearly the line of division between the two parties. Depew is particularly pleased over the work. He has urged ever since his arrival that the party take some stand on the matter, and Miller's plank on the platform he believes will answer the purpose.

PEFFER AND THE BOND MATTER.

Will Advocate Repudiation of Any Additional Issues.

MEMPHIS, Sept. 18.—Senator Peffer passed through the city yesterday, en route to the Chickamauga celebration. He was interviewed while at breakfast and reiterated his formerly expressed intention to introduce in the senate next session a resolution for the repudiation of any additional bonds that may be issued by the Cleveland administration. All the bonds issued by this administration, he said, were illegal. Asked why he has not already moved to have them declared illegal he replied: "Well, because the people seem to have been satisfied with the result."

He expressed the opinion that the president would urge the new congress to pass an act authorizing the retirement of the greenbacks and Sherman notes, which he said would bring on more talk.

Senator Peffer predicted that both the Republican and Democratic national conventions would declare against free silver, and the free silver members of those parties would have to submit or join the Populists. He did not believe that any party based on the single issue of silver could win.

GREATEST RACE OF THE YEAR.

Five Crack Horses Go for the Regular Stake at Gravesend.

NEW YORK, Sept. 18.—Yesterday was a great day at the Gravesend track; it was the opening of the fall season with the greatest race of the year as the feature. The attendance was light when the attractions were taken into consideration, for barely 5,000 people appeared. All during the year efforts have been made to bring the five best handicap horses in training together, and finally without any agreement the Brooklyn Jockey club had succeeded in getting them into their regular stake, with Henry of Navarre, Ray el Santa Anita, Domino, Clifford and Sir Walter.

At the post Domino acted like a demon and refused to break, so it was ten minutes before they came up to the starter in line and the red flag dropped. Sir Walter was the first to show, and came into the stretch for the first time under a gentle pull, with Rey el Santa Anita second, Henry of Navarre third, Clifford fourth and Domino last. They came slowly down in front of the grand stand at little more than an exercise gallop, nearly all of them buck jumping. Fifty-three seconds was the time to the half mile.

Then Taral urged Domino and passed Clifford. At the three-quarter Sor Walter was leading, with Navarre third. At the mile Domino was beaten, while Sir Walter still led, but was in trouble with Navarre still in third place. Then the latter came on, passed everything and landed a winner in 2:09. Clifford was second and Sir Walter third.

POLITICS AND CRIME CONNECTED.

Paper by a Professor of Economics Read at the Prison Congress.

DENVER, Sept. 18.—A sensation was created in the Prison Congress by a paper on "Politics and Crime," written by Amos G. Warner, professor of economics and social science in the Leland Stanford university of California, and read by John N. Dryden, of Kearney, Neb. "If the state itself is under the influence of criminals," says the doctor, boldly plunging into his subject, "how can it hope to reform criminals? Setting a thief to catch a thief was an old-time doctrine, but the plan of setting a thief to reform a thief has never yet been defended. The representatives of the state with which criminals are most frequently brought into contact are policemen, police justices, sheriffs, sheriff's deputies, and jailkeepers, only a shade, if at all, better than the criminals themselves."

The paper started a warm discussion and brought out a number of protests. Warden W. E. Hale, of San Quentin, Cal., who for six years prior to assuming charge of the prison had been sheriff of Alameda county, said that he wanted to brand some of the allegations as to corruption in California as false. Mr. Hale thought it was shameful for a man of the standing of the professor to make such sweeping and general charges and he could not sit still under them. It was the sentiment of the delegates that a man of Professor Warner's standing would not make such broad assertions unless he was able to back them up. The paper was ordered filed and thanks sent to the professor.

Trial of Theodore Durrant.

SAN FRANCISCO, Sept. 18.—In the trial of Theodore Durrant Martin Quinlan, an attorney, supplied another missing link, testifying that he saw Durrant and a young lady walking on Bartlett street toward Emanuel church about 1:10 p. m. April 3. The defence tried to impeach his reliability, but David Clarke, who accompanied Quinlan, corroborated all Quinlan had said regarding his movements. Mrs. Caroline Leake then testified that she saw Durrant and a young woman enter the church on the afternoon of April 3. She was positive.

Railway Track Deal Completed.

CHICAGO, Sept. 18.—Negotiations between the Chicago and Alton and Toledo, Peoria and Western railways regarding the use of the latter's tracks from Washington, Ills., to Pekin by the former, have come to a successful conclusion. Arrangements have also been made whereby the Alton secures the right to use the tracks of the Peoria and Pekin Union railroad from Pekin to Peoria and terminal facilities at Peoria.

Susan B. Anthony Faints.

ROCHESTER, N. Y., Sept. 18.—Miss Susan B. Anthony was seized with a fainting spell in a photograph gallery, and for a time those who were present were seriously alarmed. Miss Anthony was about to sit for a photograph when the attack began. Medical assistance was immediately procured, and after restoratives were administered she recovered consciousness and was taken to her home.

Condition of the Gold Reserve.

WASHINGTON, Sept. 18.—Reports to the treasury department show that $250,000 in gold was withdrawn yesterday from the sub-treasury at New York for export, and that $250,000 in gold was deposited by a Rochester bank, which offsets the withdrawals, leaving the true amount of the reserve at the close of busines $95,382,528.

Hope Was Father to the Report.

LONDON, Sept. 18.—At the foreign office the report is denied that the porte had accepted the plan of reform in the administion of affairs in Armenia which was submitted by the powers signatory to the treaty of Berlin.

FOES NO LONGER.

The Blue and the Gray Meet on Old Fighting Ground.

EVENTS AT CHICKAMAUGA BEGIN.

State Delegations Today Dedicating Their Monuments on the Once Red Field—Governors Altgeld, McKinley and Others Arrive to Lead the Ceremonies for Their Respective States—Sons of Veterans Give Knoxville, Tenn., a Great Parade

CHATTANOOGA, Sept. 18.—People are pouring into this region almost as thick and fast as they did thirty-three years ago. But they are not all men this time, and they are not armed, though some of the old veterans—both of the north and of the south—are attired in their army regimentals. Many of these old fellows have their wives and children with them and they have been looking over the battlefield where they fought so fiercely thirty-three years ago. No one will ever know the number of people that have come here from all parts of the north and south. General Boynton says that the visitors are strung along from Sherman Heights to the far end of Chickamauga. All the hotels, inns, traverns and boarding houses are full, and thousands are camping where they camped on the night of the 17th of September, 1809.

Don't Hate "Yankee Doodle" Any Longer.

The passenger agent of the railway leading to Chattanooga battlefield said that his road had hauled not less than 5,000 people there. This was not nearly all who went out. Many went out on the electric car lines and then took carriages. Chattanooga citizens have thrown the town open to the visitors, and if any of them did at one time feel a hatred for "Yankee Doodle" it has long since died out. Everything that human ingenuity could devise for the comfort of the old soldiers has been done by the enterprising dwellers in Chattanooga. The Ohio visitors made a grand demonstration upon the arrival of Governor McKinley. He came in from Knoxville over the Southern road, and was met at the station by the Ohio commission with carriages, a military band, the Toledo Cadets and the Fourteenth regiment Ohio National Guard.

Arrival of Governor Altgeld.

He was escorted to the home of Hon. H. Clay Evans, whose guest he will be during his stay here. Governor Altgeld, of Illinois, accompanied by Adjutant General Orendorf, his staff, and the Illinois commission, came in from Chicago. Governor Matthews and his staff, and Colonel I. N. Walker, commander-in-chief of the G. A. R., have also arrived. Vice President Stevenson and family arrived late last night via the Cincinnati Southern railroad and proceeded at once by special train to their quarters at Lookout Inn. He was met at the station by the Second battalion and Nashville battery of the Tennessee National Guard. Governor and Mrs. Morton with the governor's staff are due to arrive today.

Dedicating State Monuments Today.

The arrangements for the dedication of the battlefield of Chickamauga were complete. Today's exercises were confined to the dedication of the various state monuments and the formal turning over of them to the national government. The states that are dedicating their monuments are: Illinois, Ohio, Michigan, Minnesota, Wisconsin, Indiana, Massachusetts and Missouri. The Society of the Army of the Cumberland met this morning at 9 o'clock, Colonel J. D. Morgan, of Illinois, presiding.

PARADE OF SONS OF VETERANS.

Knoxville, Tenn., Very Elaborately Decorated for the Demonstration.

KNOXVILLE, Tenn., Sept. 18.—Fifteen thousand people from a distance witnessed the grand parade given in honor of the encampment of the Sons of Veterans. The parade moved promptly at 10 o'clock from North Knoxville. Captain William Rule, editor of The Journal, was chief marshal; Captain Alexander Allison, chief of staff, and prominent citizens chief marshals and aides. The city was elaborately decorated. The parade was the largest and most imposing event ever witnessed in Knoxville.

First came a platoon of mounted officers, the chief marshal and his assistants. In carriages, Governor William McKinley, of Ohio, and staff; Governor Upham, of Wisconsin, and staff; Governor Woodbury, of Vermont, and staff; Past Commander-in-Chief Lawler and chiefs, uniform rank Knights of Pythias, Grand commandery, Sons of Veterans and delegates from nearly every state in the Union, G. A. R. veterans, and University of Tennessee cadets and faculty, Knoxville Legion and Marble City guards, fire department, school boys' brigade, lodges and military bands.

The governors were tendered receptions in the afternoon and they left last night for Chattanooga to attend the Chickamauga park dedication.

Let His Shrift Be Short.

FORT SMITH, Ark., Sept. 18.—It took a jury in the United States court only one hour to convict Henry Starr, the young Indian bandit, of the murder of Floyd Wilson, who was trying to arrest him for outlawry. Starr formed a band out of followers of Bill Dalton and was very successful, the Missouri, Kansas and Texas train robbery at Pryor creek and the Bentonville bank robbery being their last jobs. He is still a beardless youth, tall, slender and athletic, with very intelligent, pleasant face. He expressed his contempt for the jury which convicted him by speaking of them as a pack of idiots.

On the Base Ball Diamonds.

CHICAGO, Sept. 18.—Scores recorded by League base ball clubs are as follows: At Washington—Brooklyn 12, Washington 5; at Louisville—St. Louis 0, Louisville 5; at Pittsburg—Chicago 10, Pittsburg 7; (second game) Chicago 7, Pittsburg 1; at Cleveland—Cincinnati 0, Cleveland 7; at Boston—Baltimore 6, Boston 5; (second game) Baltimore 3, Boston 5—five innings, darkness; at New York—Philadelphia 7, New York 8.

Southern Illinois Conference.

METROPOLIS, Sept. 18.—The forty-fourth session of the Southern Illinois conference of the Methodist Episcopal church met in annual session in this city. The day was devoted to the examination of classes and the night to the annual convention of the Epworth League. About 350 ministers and laymen are present. Bishop Joyce, of Tennessee, is presiding.

ATLANTA EXPOSITION OPENED.

President Cleveland Starts the Machinery from Gray Gables.

ATLANTA, Sept. 18.—This morning at 6 o'clock the gates of the Cotton States International exposition were thrown ajar for 120 days. Until the bells in the chimes in the tower toll the knell of the dying year the exposition gates will be open to the world. Half of the nations of the earth were represented in the procession during the day, and the most prominent speakers of the country addressed the multitude that gathered in the Auditorium to witness the formal inaugural exercises.

A wire had been put in from Buzzard's Bay, the telegraph station for Gray Gables, the home of President Cleveland, and another wire had been put in from the Auditorium to the Machinery building. When the time for touching the button arrived the wires were cleared and an operator in the Auditorium notified another operator at Gray Gables. The wire running into Machinery building had been connected with two electric machines attached to valves on the big Frick engine which drives the shafting of the machinery and the valve on the largest water pump.

As soon as the president closed the electric circuit the valves were opened and steam poured into the engines. As they began to act the engineers in the building opened all the engines and started every machine in the hall.

SUSTAINED THE NEW BOARDS.

Nebraska's Supreme Court Decides the Omaha Police Muddle.

LINCOLN, Sept. 18.—The supreme court has filed its decision in the Omaha fire and police commission case with the clerk of the court. It is quite voluminous, comprising 10,000 words, covering all of the points raised by the attorneys and quoting many authorities. The decision in substance finds for the new board of fire and police commissioners, and declares the act constitutional.

Upon the point raised by the attorneys for the old board that Governor Holcome did not attend the meeting of Churchill and Russell at the time the new board was named, the court held that the interests of a state or municipality are not to be jeopardized by the action of one party. In conclusion the court finds that Broatch, Vandervoort and Foster are the lawfully constituted board of fire and police commissioners of Omaha.

OMAHA, Sept. 18.—In accordance with the decision of the supreme court the new board of police and fire commissioners has assumed control in this city. The chief of police one captain, two sergeants and others of the old police force were immediately removed, and an order issued stating it as the intention of the board to execute the laws of the city and state impartially and discreetly.

GOOD WITNESS FOR WALLER.

Evidence That Will Show That the Ex-Consul Has Been Outraged.

WASHINGTON, Sept. 18.—Mr. Langston, of counsel for ex-Consul Waller, and Paul Bray, step-son of the latter, have received letters from Waller showing that his health is improving slightly. As the advices received here are to the effect that the record of the court martial in this case cannot possibly reach Paris before the 22nd. inst., at the earliest, the statement of a French newspaper that Waller's case is hopeless is entirely discredited here. An important witness in Waller's behalf, and one who, it is alleged, can be relied upon to prevent any "doctoring" of the court martial record, will start for the United States in a few days from London.

This is F. G. Woodford, a civil engineer and an American citizen who was in Madagascar at the time of the Waller trial, and is fully conversant with all of the facts. Woodford has made a concise report already to Secretary Olney of all the facts as they fell under his observation, and while his statement does not acquit Waller of errors of judgment it is said that it does show that he was innocent of any crime and that he has been outrageously treated.

ANOTHER REMARKABLE SHERIFF.

Dares to Defy the Mob to the Point of Using Powder and Shot.

NASHVILLE, Sept. 18.—An attempt was made just after midnight by a mob to break into the jail at Lexington, Tenn., and take out and lynch Harrison Fuller and Frank Simpson, charged with rape upon two respectable white women. The attacking force was 200 strong, broke in the jail door with sledge hammers and tried to get the prisoners. In the fight that followed four of the mob were shot, one named Crook fatally. The deputy sheriff who defended the jail was somewhat injured. Excitement runs high.

Peru Not Recognizing Cuba.

NEW YORK, Sept. 18.—A special to The World from Colon, Panama, says: Peru forbids the recruiting of Cuban insurgents. The government has sent Senor Orbegoza, vice president of the senate, to Europe on a secret mission, which is supposed to have some reference to the decision.

Looks Like a Crisis for Turkey.

LONDON, Sept. 18.—A dispatch to The Chronicle from Constantinople says that the British minister's yacht has been under steam for the last twenty-four hours awaiting dispatches for the fleet. Great apprehension is felt among the Turks.

Noted Forger Gets Off Lightly.

MILWAUKEE, Sept. 18.—Richard Lennox, one of the most noted forgers in the country, pleaded guilty to a charge of uttering and passing a forged paper and was sentenced to two years in the house of correction.

Two Fatalities at a Bull Fight.

CITY OF MEXICO, Sept. 18.—Two men were killed and five injured at a bull fight at Sawangel on the account of the floor giving way. Sawangel is a pretty suburban town, a favorite rainy season resort of the aristocracy.

No Anti-Prize Fight Law in Texas.

DALLAS, Sept. 18.—The Corbett-Fitzsimmons match will come off in this city. In the test glove contest case before Judge Hurt, of the court of criminal appeals, he held that there is no law in Texas against prize fights.

Report of Ocean Horror Unfounded.

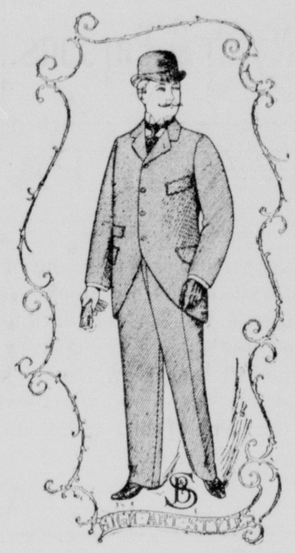

BERLIN, Sept. 18.—The rumor that was in circulation here that a North German Lloyd steamship had been sunk with 150 passengers on board has been proven to be unfounded.

Grasped a Live Wire and Is Dead.

NEW YORK, Sept. 18.—James Dalton, an electric lineman, 27 years old, was instantly killed by grasping a live wire while at work on a electric light pole.

BOODLE INQUIRY.

Those Charges Against the Illinois Legislature

EXPOSED TO GRAND JURY SCRUTINY

Editor Kohlsaat, of the Chicago Times-Herald, Appears with His Documents—A Couple of Elgin Dairymen Tell What They Know—Alleged Solicitation of a Bribe by a Representative—A Moultrie County Lumber Dealer Testifies.

SPRINGFIELD, Ills., Sept. 18.—The Sangamon county grand jury took another turn in the examination of witnesses in the investigation of charges of alleged bribery of members of the Thirty-ninth general assembly. Editor H. H. Kohlsaat, of the Chicago Times-Herald, submitted considerable documentary evidence on which The Times-Herald had based its charges againtt representatives, Crafts, Berry, Hawley and Thiemann when it charged them with handling large sums of money to assist in passing the race track bill. Kohlsaat also had a secret conference with State's Attorney Graham. Thomas Gannon, a staff correspondent of The Times-Herald, also testified.

The Charges Against Hawley.

Secretary D. W. Wilson, of Elgin, of the National Dairymen's association, gave the grand jury the name of a prominent Chicago packer from whom, he alleged, Representative Hawley solicited a bribe. This manufacturer is alleged to have used a large sum of money to defeat the butterine and filled cheese bill after it reached the senate. D. W. Sherwin, of Elgin, was also examined. He had a letter in which it is claimed that Representative Hawley, writing at the Great Northern hotel, Chicago, made proposals to Sherwin regarding the cheese bill. Sherwin was in Europe at the time and he at once cabled, it is said, the answer: "Not one cent."

Another Offer of the Needful.

A. H. McKenzie, a lumber dealer of Sullivan, Moultrie country, related what he knew of the matter of the alleged offer of money to secure the passage of the amendment to the mechanics' lien law. Representative Jonathan Merriam, of Tazewell county, informed the grand jury that all the evidence he had regarding boodling was in the possession of Editor Kohlsaat, of The Times-Herald; Editor Barnes, of the Peoria Journal, and Representatives Daugherty and Merrill, of Peoria.

Something That Has Leaked Out.

It has leaked out that the strongest evidence that has been adduced against any one would bring the investigation within the jurisdiction of the Cook, Peoria and Kane county courts. Editor Barnes, of the Peoria Journal; Representatives Daugherty and Merrill, of Peoria, or Hammers, of Woodford county, will be examined by the grand jury today.

Edward B. Utley Funeral.

The funeral service over the remains of Edward B. Utley, who died at his residence on Third street, Sunday evening about nine o'clock, was held this afternoon at the residence of his mother, Mrs. Frances B. Utley, corner of Third and Madison avenue, and was attended by a large gathering of lifelong friends, of this city and vicinity. Services were conducted by Rev. Bickenback of the Presbyterian church of Lyons, Iowa, song service by Miss Ella Richards of Sterling. The pall bearers were George Steel, A. K. Trusdell, D. S. Horton, S. C. Eells, E. C. Parsons and C. F. Emerson. Deceased leaves a wife, a mother, a sister, Mrs. A. C. Bardwell, a brother, Doctor Henry Utley of Springfield, this state, and two children, Miss Frances and Master Gordan Utley. These relatives nursed him through a most distressing illness with no hope of his recovery. He had not been able to speak for a year. Mr. Utley had retired from business some fifteen years ago.

Death of Miss May Campbell.

The sad, but not altogether unexpected news, received this morning, of the death of Miss May Campbell carried sorrow to the hearts of a large circle of friends, but fell with greatest force upon the heart of her mother, who was already prostrated by illness. Miss Mamie was born in Dixon twenty-six years ago the 14th of last February. Here she was educated, and here she grew to lovely womanhood, winning friends at every step by her lovable traits of character. For eight and a half years she was a valued saleswoman in the store of S. G. Austin & Co., where her pleasant address and accommodating spirit made her a favorite with customers. Two years ago her health gave out, and it soon became evident that the dread disease, consumption, had marked her as a victim. Last April she went to Colorado to seek relief in its more salubrious clime. Two days ago, in reply to a dispatch announcing her serious illness, Mr. and Mrs. Charles Seibert—her sister and husband—started for Erie, thirty miles from Denver, where Miss Campbell lay ill, and which they probably reached last night or this morning. Yesterday word was received that Mamie continued to grow worse and could scarcely live through the night; and at eleven o'clock news came that she had passed to her rest at seven o'clock last evening. Her remains will be brought home for burial, and notice of the funeral will be given hereafter.

Finger Nail Growth of a Lifetime.

The statistical man who can tell you how many pounds of leather you will wear from your shoes in a lifetime and how many tons of food you will eat, providing you live to the Biblical limit of "threescore and ten," has just finished some odd statistics on finger nail growth. He finds that the average human being cuts away about the one thirty-second part of an inch of nail each week, or a little more than an inch and a half each year. He also finds that the average length of life the world over is about 40 years; that there are 1,300,000,000 miles of finger nails in each generation.—St. Louis Republic.

WEATHER CROP BULLETIN

Of the Illinois Weather Service for the Week Ending Monday, Sept 18.

The first half of the past week was very hot throughout the entire State, and the southern counties did not receive the relief which came to the central and northern on the 13th, and which gave these cool weather the last half of the week. Showers also accompanied the cool weather, light and scattered on the 13th, but quite general on the night of the 14th and the 15th. The rainfall for the week, however, was much below the average, while the temperature was much above. Corn was forced to a very rapid maturity and only very late fields could now receive injury from frost. Much of the crop is being cut, and a large amount of it is now in the shock, with the work being pushed. Some little rye is still sown, but most of the crop is in and much of it is up, with a good stand of grain. Little wheat has yet been sown, but seeding will be general throughout the central counties the last of the week, and in southern counties the following week. Pastures are good, and late potatoes and buckwheat have had favorable weather in most counties.

NORTHERN SECTION.

Crops have made good progress; corn is practically beyond injury from frost, and a large amount of the crop is in the shock. More has been cut than usual to supply the lack of hay; cutting continues. A little wheat will be sown this week by those who venture on the crop. Pastures are again in good condition and meadows will in many cases yield a second crop of hay. Late potatoes have had a favorable week. Plums are plentiful and in a few favored localities quite a quantity of peaches are reported.
